Teachers List

Please complete the below teachers list for ALL teachers employed (ensuring that all sections are completed accurately), and submit this with your AUSTSWIM Recognition application.

AUSTSWIM recommend that you cite and record the details of all teacher's qualifications employed at your centre. This helps to ensure that all of your teacher's qualifications are kept up to date, and are appropriate for the aquatic education programs being taught.

If you require additional pages of the teachers list template, please go to the AUSTSWIM Website. Alternatively, you can attach an employee list from your own records, provided that all the below fields are met.
